

AQUALUMA® LUMA-VU UNDERWATER CAMERA

For those curious about what lies beneath their boats, the Luma-Vu Camera gives you a crystal clear view of what's happening underwater. Simply flick the switch and a kaleidoscope of color will be revealed. The high resolution, 12-volt color CCTV camera connects to any on-board video input and features a corrosion-proof, scratch resistant, injection-molded polymer housing.

This camera is durable enough to face the toughest cruising conditions plus connects to any video input. www.aqualuma.com

SIRIUS SIGNAL SOS C-1001

Powered by a high-performance, programmable microprocessor controlling an SOS signal flashed through a potent CREE LED bulb, this model is both family safe and easy to use. The design provides an omnidirectional light display for surface rescue craft and a vertical beam visible to aircraft flying overhead. Visible up to 10 nautical miles, the SOS C-1001's beam lasts for hours compared to the minutes-long lifespan of traditional pyrotechnic distress signals. This unit fulfills all Coast Guard requirements for marine distress signals when combined with the included distress flag.

CREWSAVER ERGOFIT ERGT 290GT

Crewsaver's ultimate lifejacket collection, ErgoFit, was launched in 2012 and has subsequently come to completely redefine safety, comfort and style afloat. This new 3D-molded lifejacket designed for those working in the most ferocious and extreme marine environments or for sailors facing the full fury of the elements. With nowhere to hide when a storm rolls in, it is vital to have the best safety kit on the market. The ErgoFit 290 OC is just that. It combines all Crewsaver's knowledge and experience with the most sophisticated design, manufacture and materials to give you an easy to wear, versatile, stylish and completely functional lifejacket. With its intelligent cut-away profile, it allows you total mobility, which allows you to move about the boat unhindered. The life jacket also includes a built-in inflatable chin support that tilts your neck back and keeps your airways clear and a unique bladder distribution, providing inflation in less than three seconds. There is also a soft loop D-ring for attaching a safety harness and side waist adjusters. www.crewsaver.com/Leisure/p/535/ergofit-290n-oc

EMERGENCY BEACONS

Explore with confidence. Exact GPS positioning allows for faster rescue response.
